

Frequently Asked Questions – Address Signs

What is your Guarantee Policy?

Mayne Address Signs come with a 15 year warranty that covers any defects in materials and workmanship.

What are Mayne Address Signs made of?

Our address signs are roto-molded using high quality polyethylene. The resin includes built in UV inhibitors offering long lasting protection from the elements (products won't yellow or discolor).

How do I Maintain my Address Sign?

An occasional spray with a garden hose or power washer is recommended. To clean the product for best results use soap solution and high-pressure water.

What is Included with a Mayne Address Sign?

The Nantucket and Winchester Address Signs include the decorative sign as well as all necessary hardware for installation. The Woodhaven includes the decorative post, the bracket from which your sign can be hung and the hardware required for installation. Detailed installation instructions are also included.

How are Mayne Address Signs Installed?

Mayne address signs install easily over standard 4x4 wood post(s); pressure treated is recommended. Two 4ft standard 4x4's are required for installation of the Winchester and Nantucket. For the Woodhaven Address Sign, we recommend using a standard 4x4 that measures 6 to 7 feet in length, with 2-3 feet buried in the ground and 4 feet exposed above ground. For added strength we recommend securing the wood post(s) in place with quick set concrete. Alternatively, our No-Dig Ground screw may be used for installation, in which case, a standard 4x4 that is 4 feet in length would be required. Once the 4x4 wood post is leveled, secured in the ground and the decorative post sleeve is applied, the sign bracket can be attached using the hardware provided. This will anchor the decorative post securely in place.

How Difficult will my Address Sign be to Assemble?

Assembly is minimal and Installation time depends on the address sign and the person installing. All Mayne Address Signs come with detailed instructions and technical support is available by calling our toll-free number (866-363-8834) Monday to Friday from 8am-5pm EST.

What Materials aren't Included with Mayne Address Signs?

The wood posts are NOT included with any of our address signs and can be purchased from your local hardware or lumber retailer. Plaques and plaque mounting hardware are also not included.

Can I Paint a Mayne Address Sign?

While there are paints available for vinyl products, nothing has been made specifically for polyethylene. We don't recommend painting your Mayne address sign and choosing to do so is done at your own discretion and will void your warranty.

Where Can I Purchase Address Plaques for my Mayne Address Sign?

Various styles, sizes and price points are available. We encourage the customer to purchase the address plaque from their local hardware store or from their preferred online dealer. The plaques pictured in the marketing material for our address signs are available through Whitehall Products (Tel: 800-728-2164). Feel free to contact a Mayne representative for more details.
