

Rear Access Custom Commercial Boxes

Rear Access Commercial Boxes provide efficient delivery to large institutions who need to have their incoming and outgoing bundles of mail kept securely locked. These boxes are typically used for schools, medical facilities and large offices.

Designed with security in mind, Custom Commercial Boxes are made of 14 gauge aluminum. They come standard with a high security Medeco deadbolt lock and two keys for recipient access in the back of the box. The USPS provides pick-ups and deliveries on the front side of the box that comes prepped for the USPS universal lock. Commercial Boxes are also available in Stainless Steel.

We offer posts for this product in both surface mount and in-ground models. **Posts sold separately.**

*** Collection boxes are NOT for residential use and can not be returned or exchanged. Requires local U.S.P.S approval prior to installation**
